Curriculum Vitae
August 2026

Department of Economics
Northern Illinois University
510 Zulauf Hall
DeKalb, IL 60115

Office: DuSable 470
Email: z1907545@students.niu.edu

**NIU Job Market Coordinator**
Dr. Anna Klis
Email: aklis@niu.edu
Phone: 815-753-1031

**NIU Job Market Administrator**
Ms. Debbie Woolbright
Email: woolbright@niu.edu
Phone: 815-753-1031

## EDUCATION

Ph.D. Department of Economics, Northern Illinois University
Expected completion May 2027
Dissertation Title: "Essays on Labor Productivity"

M.S. Statistics, Department of Statistics and Actuarial Science, Northern Illinois University, Illinois, 2025

M.A. Economics, Department of Economics, University of Wisconsin - Milwaukee, Wisconsin, 2019

B.Sc. Economics (Research), Shiv Nadar University, India, 2017

**Fields:** Labor economics, econometrics, microeconomics, macroeconomics, applied microeconomics

### DISSERTATION COMMITTEE & REFERENCES

Dr. George Slotsve
Email: gslotsve@niu.edu
Phone: 815-753-1031

Dr. Ai-ru (Meg) Cheng
Email: acheng1@niu.edu
Phone: 815-753-1031

Dr. Carl Campbell III
Email: carlcamp@niu.edu
Phone: 815-753-1031

## TEACHING EXPERIENCE

2026 Instructor, Department of Economics, Northern Illinois University
*Courses:* Contemporary Issues in Economics (U), Macroeconomics (U)

2025 Lead Instructor, Department of Economics, Northern Illinois University
*Course:* Microeconomics (G)

2020-2025 Graduate Teaching Assistant, Department of Economics, Northern Illinois University

*Courses: Principles of Microeconomics (U), Income Distribution and Poverty (U), Microeconomics (G), Mathematical Methods in Economics (G), Algorithmic Trading (G), Econometrics (U/G), Introduction to Environmental Economics (U)*

## Manuscripts in Preparation

"Productivity Gains and its Linkage with Compensation and Capital - A Sectoral Analysis" This paper evaluates how productivity gains are transmitted to labor compensation and capital intensity using the linkage-delinkage spectrum introduced by Stansbury and Summers (2017, 2019). Using annual industry-level data from 1989 to 2019, the paper estimates the OLS and Fixed Effects models to establish the linkage and analyze its strength on the linkage-delinkage spectrum. These models are used to infer how strongly the productivity gains are linked to workers' compensation and capital intensity to explain the divergence of productivity gains. The results indicate that the divergence of productivity gains towards capital investment and labor compensation varied by sector. The results show that the linkage between productivity and compensation is stronger in the Manufacturing sector compared to the linkage between productivity and capital intensity; whereas the linkage between productivity and capital intensity is stronger than the linkage between productivity and compensation in the transportation and warehousing sector. This reflects that manufacturing sector is paying more to an average worker than investing in capital whereas the transportation and warehousing sector is investing more into capital than paying its employees. Furthermore, it is observed that there are other factors like intermediate inputs which could be blocking the transmission of productivity gains to compensation and capital.

# AWARDS & CERTIFICATION

2024 Introduction to Tableau, DataCamp

2021 Microsoft Excel, LinkedIn Learning
2021 Outstanding TA Award, Northern Illinois University
2019 Introduction to R, DataCamp

# EXTRACURRICULAR AND VOLUNTEER WORK

Secretary, Association of Graduate Economic Students (AGES)
Founding Member, Student Association of India
Climate Counsellor, International Centre for Culture and Education (ICCE)
Student Guide, Counseling Services, Shiv Nadar University

# TEACHING EXPERIENCE

## Instructor

| | |
|---|---|
| Principles of Macroeconomics (U) | F26 |
| Contemporary Issues in Economics (U) | S26 |
| Microeconomic Analysis I (G) | S25 (Lead Instructor) |

## Graduate Teaching Assistant

| | |
|---|---|
| Mathematical Methods for Economists (G) | F24, F23, F22, F21 |
| Microeconomic Analysis I (G) | S23, S24 |
| Econometrics (U & G) | S22 |
| Introduction to Environmental Economics (U) | S21 |
